WORK EXPERIENCE

Junior Web Developer

CodeStack | Aug. 2021 - Current

- Following the internship, I was offered a position at CodeStack as a Junior Web Developer.
- Created new features and updated user forms requested by numerous users statewide.
- Persevering functionality of SEIS utilizing HTML, CSS, JS, AngularJS, JQuery, C#, SQL by upkeeping older code and modern techniques.

Junior Web Developer Intern

CodeStack | Jun. 2021 - Aug. 2021

- Full stack developer position involving maintaining and updating the Frontend and Backend of SEIS.org
- Improved functionality and user experience by utilizing HTML, CSS, JS, AngularJS, JQuery, C#, and SQL.

Junior Web Developer Intern

Health Force Partners | May 2021 - Aug. 2021

- Full website redevelopment starting from a prototype in Adobe Xd to launching with Velo by Wix.
- Primary built with custom JavaScript and databases.

Geek Squad Consultation Agent

BestBuy | Mar. 2020 to Nov. 2020

- Handle appointments made by customers concerning hardware and software issues.
- Performed restores on PCs and Apple devices.
- Managed BestBuy's repair service and Apple's repair service

Computer Sales Associate

BestBuy | Sep. 2019 to Mar. 2020

- Assisted in customer sales and provided information on technology devices.
- Trained new employees on Point of Sale system.
- Daily organized field of work area.

PROJECTS

QUP

- Full Stack application created as a companion for League of Legends.
- Users sign up to look for other players they wish to play with.
- App features friends list, notifications, chat, and a forum.
- Tech Stack includes Angular 11, HTML, CSS, TypeScript, C#, SQL, and Azure Web Services.

Business Redevelopment

- Website created using HTML, CSS, and Bootstrap
- As a team of 2, we selected a local business that we wished to recreate, starting by creating a prototype in Adobe Xd then developing it.
