PROJECTS

QUP
- Full Stack application created as a companion for League of Legends.
- Users sign up to look for other players they wish to play with.
- App features friends list, notifications, chat, and a forum.

Business Redevelopment
- A website created using HTML, CSS, and Bootstrap
- As a team of 2, we selected a website that we wished to recreate, starting by researching a local business, creating a prototype, and developing the website.
